

#10 Amazing Projects for Beginners (HTML, CSS & JS)

1- Quiz App

A screenshot of a quiz application interface. It features a white card with rounded corners on a light blue background. The card contains the question "Which language runs in a web browser?" and four radio button options: Java, C, Python, and JavaScript. At the bottom of the card is a purple "Submit" button.

Which language runs in a web browser?

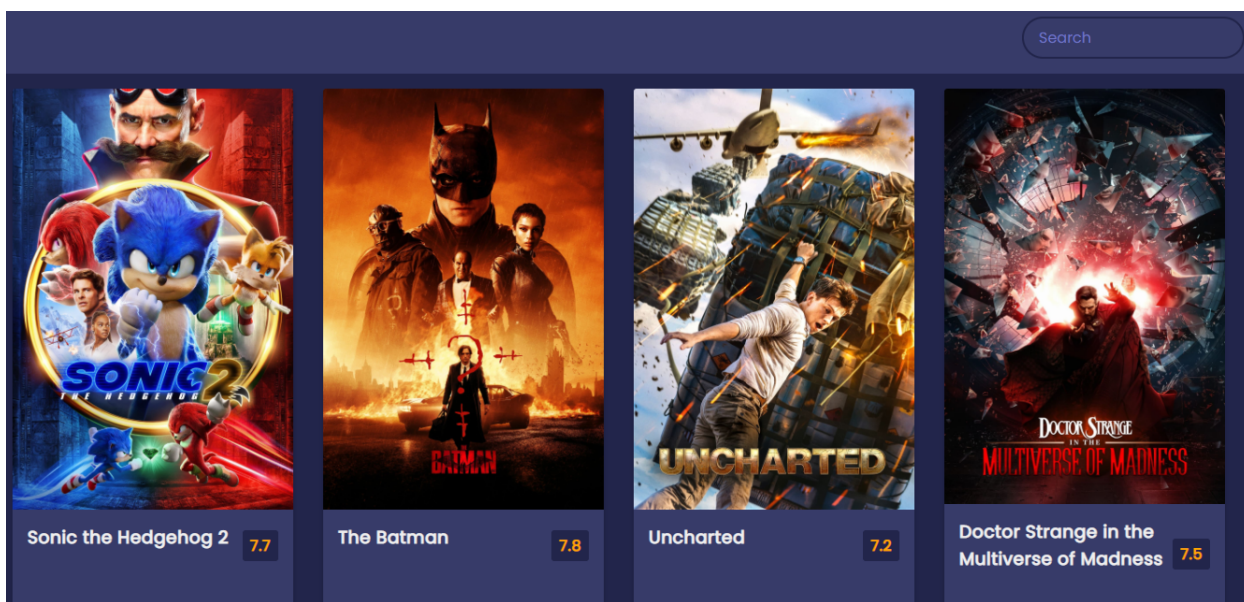

- ☐ Java
- ☐ C
- ☐ Python
- ☐ JavaScript

Submit

5- Password Generator

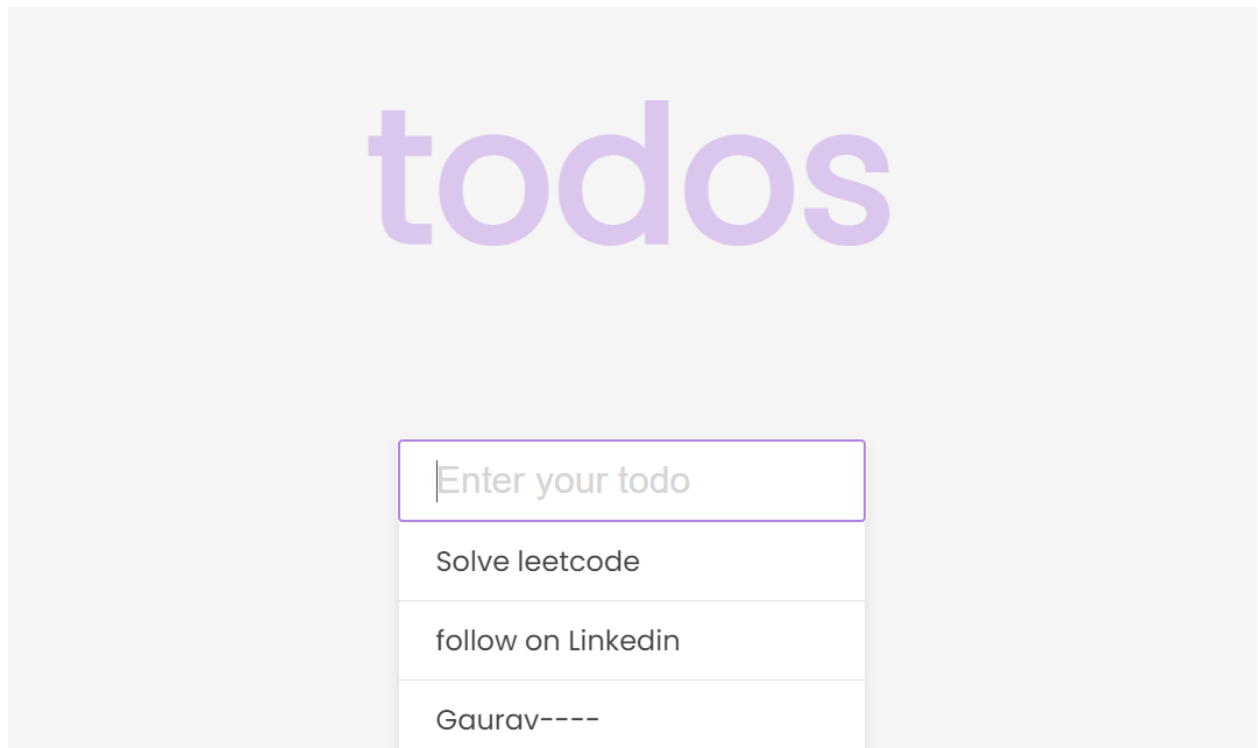

The screenshot shows a web application titled "Password Generator" on a dark blue background. The application interface is a dark grey box with the following elements:

- A password display box showing "uR6&wD0(pB6\$gR9#pI7!" with a copy icon to its right.
- A "Password Length" input field with the value "20".
- Four checkboxes, all of which are checked:
 - Include uppercase letters
 - Include lowercase letters
 - Include numbers
 - Include symbols
- A "Generate Password" button at the bottom.
